

# Announcement on the Adjustment of the Review Mechanism for Content/Physical Product Release

To further optimize the platform ecosystem, elink will adjust the review mechanism for content/physical product publishing. This adjustment will take effect on December 15, 2024 (to be confirmed). The specific adjustments are as follows:

- (1) Some physical products need corresponding qualifications to be listed. Already listed products are not affected (except for editing operations). For detailed qualification requirements for elink products, please refer to [Elink Product Qualification Requirements](#)
- (2) Content/physical products need to pass the review before being published (the review is expected to be completed within 15 minutes). Please ensure that store operators reserve sufficient review time in subsequent operations.
- (3) A new review status is added for content/physical products to help merchants keep track of the content review progress in a timely manner.

**The types of content/products involved in this adjustment are as follows:**

| Module   | Content/Physical Product | Specific Adjustments                                      |
|----------|--------------------------|-----------------------------------------------------------|
| Products | Physical Products        | Some products require qualifications<br>Add review status |
|          | Service Products         | Add review status                                         |
|          | Valuable Coupons         | Add review status                                         |

| Combination Products     | Add review status       |                   |
