Page statistics

Is the page view in page statistics deduplicated?

The page views (PV) in page statistics are non-deduplicated. Each visit is counted once.

Can multiple page statistics links be generated for the same course product?

Yes, multiple different page statistics links can be generated for the same course product.

Can the statistics page be re - edited after the statistics link is successfully created?

After the statistical link is successfully created, you can edit the statistical name and the placement channel again, but you cannot edit the statistical page again.

QR Code & Short Link Generation

Can the created courses, communities, events, coupons, invitation codes, etc. generate QR codes or short links for promotion?

Yes, you can copy the product link. Then click [Marketing Center] - [QR Code/Short Link Generation] to compress the product link and generate a QR code for the product.
