

Graphic and text usage tutorial

I. Feature Introduction

Image-text courses are learning courses with content in the form of images and text. They are easy to create and convenient for learners to view.

II. Purpose of Use

Provide training to learners with various types of courses.

III. Use Scenarios

Suitable for learning content with a large amount of text and images.

IV. Operation Path

Merchant side: Enterprise Training Management Console → Courses → Image-text

Learner side: H5 Academy → Course Home Page

V. Usage Tutorial

1.png

Step 1: Configure the Image-text Course *(Management Backend)*

1. Log in to the management console. Select [Image-text] from [Courses] → [Create New Image-text] to enter the new image-text creation page.

(Management Backend - Courses - Image-text)

2. Basic information: Fill in the name and details of the image-text, set information such as text anti-copying, and upload the cover image.

2.png

(Management Backend - Courses - Image-text - Create New Image-text)

3. Course information:

Associated courses: You can choose to associate with columns and training plans. After saving, the course information will be displayed in the details of the columns and training plans.

Course grouping: A function to categorize and display courses.

4. Visibility scope: Set the course to be visible to specified learners. For details, please read [Tutorial on Setting Visibility Scope](#).

5. Listing Settings: Set the listing time of the course. For details, please read [Tutorial on Listing and Delisting Settings](#).

6. Guide to join the community: Configure relevant communities for different courses and guide learners to join the community on the course details page. The steps are to enable the guide to join the community; set the guiding message; upload the community QR code.

7. Click [Save] to successfully create the image-text course.

Step 2: Course Learning *(H5 Academy)*

1. Learners log in to the academy.
