

Video Tutorial

I. Function Introduction

Video courses are courses with video content. High-quality online video courses need to be pre-recorded or downloaded, which are convenient for students to watch and learn online.

II. Purpose of Use

Provide training to students with various types of courses.

III. Usage Scenarios

Students can learn more diverse course content by watching videos in a WIFI environment.

IV. Operation Path

Merchant side: Corporate Training Management Console → Courses → Videos

Student side: H5 Academy → Classroom Homepage

V. Usage Tutorial

1.png

Step 1: Configure Video Courses *(Management Backend)*

1. Log in to the management console. Select [Videos] from [Courses] → [New Video] to enter the new video page.

2.png

(Management Backend - Videos)

2. Basic Information: Enter the video name, upload the video, cover image, video ☐ , and fill in the detailed information.

(Management Backend)

3. Course Information

Associated Courses: You can choose to associate with columns and training plans. After saving, the course information will be displayed in the details of columns and training plans.

Course Grouping: A function to classify and display courses.

4. Visible Scope: Set the course to be visible to specified students. For details, please read [Usage Tutorial for Setting Visible Scope](#).

5. Shelving Settings: Set the shelving time of the course. For details, please read [Usage Tutorial for Shelving and Unshelving Settings](#).

6. Guide to Join the Community: Configure relevant communities for different courses and guide students to join the community on the course details page. The steps are to enable the guide to join the community; set the guiding message; upload the community QR code.

7. Anti-screen Recording Marquee: After the anti-screen recording marquee is enabled, whether students are watching video courses or live courses, their usernames and IDs will be displayed in a marquee on the course playback page (Note: When the system player is in full-screen playback, the marquee will not work. The academy needs to set it to the elink player). For details, please read [Usage Tutorial for Anti-screen Recording Marquee](#).

8. Click [Save] to successfully create a video course.

Step 2: Course Learning *(H5 Academy)*

1. Students log in to the academy on the student side.

4.png

(H5 Academy - Classroom Homepage)

2. Students select the corresponding video course from the courses to learn.
