

Can I watch the replay and download the live stream after it ends?

Video live streaming: After the live stream ends, merchants can enable the playback in [Live Stream List - Details - Playback Settings], or set to enable the playback when editing the live stream details page. Then, after the live stream ends, students can watch the replay. Merchants can download and edit the replay video in the background [Live Stream List - Details - Playback Settings].

Audio live streaming: There is no need to set up the playback for audio live streaming. The playback will be automatically available after the live stream ends. Merchants can download and export the live stream audio by clicking [Export Audio] in the upper right corner of the background [Live Stream List - Details].
