

Can merchants proactively remove specific promoters?

1. Merchants can proactively remove specified promoters, including regular promoters, senior promoters, and super promoters. Merchants can go to [Marketing - Promoters], find the promoter information, and then click [More - Remove].

2. Merchants can also remove promoters in batches.

3. After removing a promoter, the following relationship changes will occur:

- 1) The promoter becomes a regular user.
- 2) All customers of the promoter will be unlinked.
- 3) All subordinate promoters of the promoter will be unlinked.
- 4) The promoter is no longer a subordinate promoter of other promoters.
- 5) The promoter remains a customer of others.
