

How to understand "Affiliate Levels" and "Hierarchical Relationships"?

1. The "Promoter Level" is a self-promotion mechanism for promoters. After meeting the promotion conditions, a promoter can be promoted to a higher level and receive more generous commissions.
2. The "Superior-Subordinate Relationship" refers to the inviter-invitee relationship between Promoter A and Promoter B. If Promoter A invites B to become a promoter, then B is A's subordinate.

The "Promoter Level" has no connection with the "Superior-Subordinate Relationship"
