

# Recruitment review has been enabled. Where can I view the review information?

1. When a merchant enables recruitment review, users of the online store can submit an application via the [Promotion Center], [Merchant Recruitment Link], or [Promoter Recruitment Link or Poster] and wait for the merchant's review. They can become promoters only after passing the review. If the merchant sets recruitment conditions, users need to meet the conditions before they can apply.
2. If the merchant disables the review, users of the online store can directly submit an application to become promoters.
