

How can students attend classes using the elink Assistant PC client?

This article will introduce the usage methods from the following four different scenarios:

01.png

Scenario 1: Quickly access today's courses

Step 1: After launching the elink Assistant client, select 'Class Courses'.

Step 2: Select the corresponding course and enter the classroom to start the class.

Note:

(1) Instructors can enter the classroom at any time.

(2) Students can enter the classroom 30 minutes before the class starts. For example, if the class time is from 20:00 to 21:00, students can enter the classroom after 19:30.

02.png

Scenario 2: View courses on other dates

Select the date you want to view in the calendar selection area, and the course schedule for that date will be displayed on the right.

03.png

Scenario 3: View registered courses

1. Course list

Select the top tab 'All Class Courses' to view all registered courses, including single - session courses and series courses.

04.png

2. Search

If there are many courses, you can use the search function to quickly find courses by keywords.

Step 1: Click on the search box.

Step 2: Select the search result and enter the course details page.

Note: Course sessions can be filtered by status.

05.png

Scenario 4: View course schedules and details

Under the 'All Class Courses' tab, click on the course card to view all course sessions and course details of the course.

[Series courses] have two modules, 'Course Schedule' and 'Details', and you can switch tabs to view. In the course schedule, all course sessions of the course are displayed in three different modules: 'In - progress', 'Upcoming', and 'Completed'.

[Single - session courses] do not have a course schedule. The details page and the button to enter the classroom are directly displayed.
