

How to delete the activation records?

In the details of the user list, you can view all the course activation records of the user. If you need to delete a specific activation record of a user, please click [Users] - [User Management] - [User List], search for the WeChat nickname to find the user's record, click on their avatar. In the activation records, you can see the courses they have activated. Click the [Delete] button. Since deleting the record will prevent the user from accessing the course content again, please proceed with caution.
